

BackupAssist

Windows Backup for SMB Environments

Easy-to-use, yet affordable backup software designed to safeguard your servers and desktops.

Swift, Secure Backup

Backup your files, folders, emails, apps, databases, systems, and more.

Active Ransomware Defense

Shields backup files from crypto-based ransomware attack. Get SMS, email alerts.

Physical & Virtual

Advanced tools for protecting both Physical & Hyper-V Servers.

Onsite & Cloud

Backup your data onsite, or to a public or private cloud destination.

Rapid Restore & Recovery

Restore anything from individual files to whole systems, even from bare metal.

Pick Your Media

Local, NAS, iSCSI, External Disk, RDX, Tape, Public and Private Cloud.

Advanced Tools

Rapid VM Recovery, Granular Restore, Bootable Backups and more!

Product of Choice

Used by NASA, Volvo, Cessna, MIT, Stanford, and others! Customers in over 146 countries.

BackupAssist: Our Products

What does
BackupAssist 10
have to offer you?

BackupAssist
10

Our flagship Windows Server backup and disaster recovery solution. Includes CryptoSafeGuard to protect backup files against crypto-based Ransomware.

Cloud Backup
Add-on

Offsite your files safely on public or private cloud. Comes with amazing features like Deduplication, "No Knowledge" encryption, and interruption safeguards.

Hyper-V
Advanced Add-on

Advanced tools for protecting and restoring your Hyper-V data. Perform instant recovery of Hyper-V Guests, granularly restore data from guests, and more.

Exchange
Granular Add-on

Easily and precisely restore any lost mail data, from e-mails, contacts, attachments to calander data. Directly inject your data back into a live Exchange Server.

SQL Continuous
Add-on

Nearly eliminate data loss and keep your SQL Server protected. Get your Recovery Point Objective down to minutes, and perform point-in-time restores.

Tape Archiving
Add-on

Top-level tape support for modern Windows software like Windows Server 2012/R2 and 2008/R2, and SBS 2011. Compress and encrypt tape backups with ease.

Multisite
Manager

Multisite Manager lets you take care of all your backup installations from a single screen. Remotely handle deployments, backups, restores and more with a few clicks.

BackupAssist for
Desktop

BackupAssist for desktops. Perform full image backups, recover individual files or whole systems, and more. Includes Cloud Backup support.
